If the position to be filled is in the first level, the determination of the next-in-rank positions may be limited in a particular department where the position is.

5. DIRECTIVES

- a. When the positions in the Career Service become vacant, all employees within the University, whether incumbents of next-in-rank positions or not, who meet the minimum education and experience requirements of the positions and who possess the appropriate civil service eligibility, may be considered for promotion. Employees who are incumbents of next-in-rank positions who meet the qualifications requirements for the position to be filled and who are on scholarship grants/study grants/secondment either

here or abroad may be considered for promotion. The performance rating period prior to the scholarship grant shall be used as the basis for the promotion. Such performance rating should be at least Very Satisfactory.

- b. As a general rule, when a position in the first level of the Career Service becomes vacant the employees in the department/office who are next-in-rank in the occupational group under which the vacant position is classified, and in other functionally related occupational groups and who are competent, qualified and with the appropriate civil service eligibility shall be considered for promotion.
- c. When a position in the second level of the Career Service becomes vacant, the employees in the government service who are next-in-rank, who occupy the next lower position in the occupational group under which the vacant position is classified and in other functionally related occupational groups, and who are competent, qualified and with appropriate civil service eligibility shall be considered for promotion.
- d. In exceptional cases, however, the appointing authority may promote an employee who is not next-in-rank, but who possesses superior qualifications and competence compared to a next-in-rank employee who merely meets the minimum requirements for promotion to the positions.
- e. In filling new positions except at the lowest level, existing positions of the next lower position in the University, which are similar to the new position, shall be considered next-in-rank to the new position.
- f. In cases where the qualifications of employees are equal, preference shall be given to the employee in the organizational unit where the vacancy exists.
- g. Lack of confidence shall not be accepted as a special reason for disqualifying an employee from promotion. The special reason must be real and substantial to be considered sufficient for his disqualification.
- h. The filling of an administrative charge shall not constitute a disqualification from promotion. When an employee who is legitimately entitled to promotion has a pending administrative case, the position to which he shall have been promoted shall not be filled until after the case has been finally decided. However, when the exigencies of the service require immediate filling of the position, then, it shall be filled by a temporary appointment which shall end as soon as the employee legitimately entitled to it is exonerated. If found guilty, he shall be disqualified for promotion for the period prescribed by the Civil Service Commission.

A pending administrative case shall be constructed as follows:

- 1) when the appointing authority has already filed a formal charge; or
- 2) in case of complaint of a private person, a prima facie case is already found to exist by the disciplining authority.

- i. All candidates for promotion shall be screened by the Personnel Selection Board (PSB). The PSB shall be responsible for the adoption of a formal screening procedure and formulation of criteria for the evaluation of candidates for promotion. Reasonable and valid standards and methods of evaluating the qualifications and competence of all employees competing for promotion to the same position shall be established and applied fairly and consistently.

The PSB shall have the following composition:

- 1) Vice-President for Administration Group
- 2) Director, Human Resources Management Department;
- 3) The Chief/Head of Unit where the vacancy is;

They shall sit during the screening of candidates for vacancies. The former shall sit during the screening of the candidates for vacancies in the first level while the latter shall participate in the screening of candidates for vacancies in the second level.

In case there is no accredited employee association in the University, the representatives shall be chosen at large through a general election to be called for the purpose. The chosen representatives shall serve for a term of two (2) years.

- 5) The specific policies of the University, such as standing as a factor in the consideration for promotion, date of assumption to duty, effectivity of promotion and others, may be subject of a collective negotiation by the duly accredited employee, if any. In the absence of a duly accredited employee association, the University President may create a committee,

which shall have as member a representative of the rank and file employees, to decide on the matter.

- j. In the preparation of the list of qualified candidates, the following steps shall be taken:
- 1) A list of applicants to the vacant position including the next-in-rank and the incumbent to the position within the University who are qualified and competent for promotion to the vacancy shall be drawn up.
 - 2) The list shall also contain comparative information of their education and training, civil service eligibility, performance rating, experience and outstanding accomplishments, physical characteristics, personality traits, and potential.
- k. The following factors shall serve as bases for determining the comparative competence and qualifications of the candidates for promotion:
- 1) *Performance* – This shall be based on the last performance rating of the employee. No employee shall be considered for promotion unless such performance rating is at least very satisfactory;
 - 2) *Education and/or Training* – These shall include educational background and the successful completion of training courses, scholarships; training grants and others. Such education and/or training must be relevant to the duties of the position to be filled.

The prediction shall be based on past performance, educational qualifications and/or training, past work experience or occupational history and outstanding accomplishment, physical condition, attitude and aptitude,
